We serve you our trust...

**A COMPLETE SOLUTION OF  
LIQUID FILLING & TUBE  
FILLING MACHINE**

# Pharma Machinery & Spares

We serve our trust..

## WHO WE ARE

We are one of the leading manufacturer, exporter & supplier of Automatic Packaging Machinery. We are having complete technical knowhow & technical expertise which makes us differ from other. We are provide technical guidelines to our current as well as prospective clients. We always ready to fulfill customer's requirement with positive approach.

Our quality products are consisting of Superior Design and Latest Technology with High Graded Raw Materials. These are acknowledged for their Efficiency and Durability. The organization is equipped with all the required facilities to manufacture quality products that are at par with changing market trends.

# Liquid Filling Machinery

## LIQUID FILLING MACHINE – VISCOUS LIQUID FILLER MACHINES FOR BOTTLES AND VIALS

At Pharma Machinery & Spares, we offer some of the high-quality filling machines for diverse filling operations. Our product range includes viscous liquid filling machines along with the ones used for filling vials and bottles.

Liquid Filling Machine is a machine used in different industries for filling the raw material into the container and packing it making a finished product. This machine have benefited to various packaging company. In liquid filler, the tank, bottle or container moves in a cycle, gets filled by the machine and is further processed for packing.

Some of the other products offered by us are Twin Head Liquid Filling with Rubber Stoppering Equipment for Vials, Automatic Twin Head Liquid Filling Machine for Vials and Automatic Volumetric Liquid Bottle Filling tools. We also manufacture Automatic Four Head Liquid Filling with Rubber Stoppering equipment for Vials, Automatic Six Head Liquid Filling with Rubber Stoppering Machine for Vials, Automatic Eight Head Volumetric Pesticides Bottle Filling instrument, Automatic Bottle Sticker Labelling Machines, Multi Head Capping tools and others.

- Injectable Liquid Vial Filling Machine
- Injectable Vial Powder Filling Machine
- Prefilled Syringe Filling Machine
- Auger Powder Filling Machine
- Dry Syrup Powder Filling Machine
- Liquid Bottle Filling Machine
- Viscous Liquid Filling Machine
- Oil Filling Machine
- Rotary Filling And Capping Machine
- Liquid Manufacturing Plant
- Inline Homogenizer

# Vial Washing Machine

At Pharma Machinery & Spares, we are serving the needs of the pharmaceutical industries for quite some time now. Our range of Bottle and Vial Washing Machines has extensive applications across industry verticals. These washing tools have the best specifications and features, required for the perfect washing of vials and ampoules.

As one of the leading washing machinery suppliers, we stock a complete inventory of washing instruments for bottles, vials and ampoules. Our product range includes Offline or Semi-Automatic Rotary Bottle Washing tools, Automatic Linear Tunnel type Bottle Washing Machine, Automatic External Vial Washing Machine, Automatic High-Speed Inverted type Air jet Cleaning instrument and Automatic High-Speed Inverted type Air jet Cleaning tools.

Apart from that, Automatic External Ampoule Washing & Labelling equipment, Automatic Four Head Bottle Air Jet Cleaning tools and Automatic Six Head Bottle Air Jet Cleaning equipment.

- Vial Washing Machine
- Ampoule Washing Machine
- Bottle Washing Machine
- External Ampoule & Vial Washing machine
- Air Jet Bottle Cleaning Machine

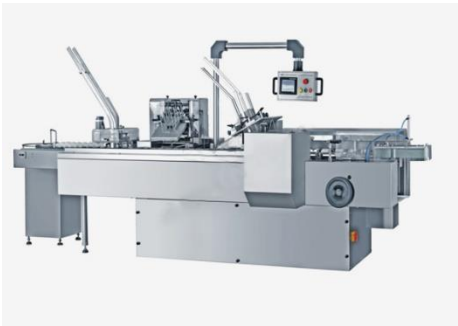

## Turn Table Section

Pharma Machinery & Spares ranks amongst the top suppliers of Turn Table Machine in the country. Our turntable devices offer superior functionality alongside meeting the GMP quality standards. The equipment operates on 440-volt electrical power and works on the Geneva mechanism. While operating this machine, users will have to load and unload bottles manually.

Our Turn Table Scrambler & Unscramble has a unique look and perfect finishing. The machine offers multi-functionality by working on Rotary principle. You can use the tool to ensure perfect washing for both plastic and glass bottles. And we offer it at highly affordable price.

# Capping Machine

At Pharma Machinery & Spares, we strive hard towards offering the best capping machines to our clients. Depending upon your capping requirements, you can select the most appropriate machine from our product inventory that includes Semi Automatic Cap Sealing, Automatic Single Head Vial PP or Flipp-Off Capping tools, Bottle Screw Capping and Automatic Four Head Bottle ROPP Capping equipment. Our bottle ROPP capping instruments are available with 1, 2, 3, 4, 6, 8 and 12 heads.

Other than that, our product inventory also includes Automatic Crew Capping tools with single and multi-heads. Additionally, we offer Automatic and Semi Automatic ROPP Cap Sealing equipment, Automatic Measuring or Dosing Cup Placement devices, Automatic Multi Head ROPP Cap Sealing and Automatic Screw Cap Plastic Cap Sealing device and several other capping machines with diverse specifications.

- Manual Vial & Bottle Inspection Machine
- U Shape Conveyor Belt
- L Shape Conveyor
- Bottle Check weight Machine Online
- Bottle Leak Check Machine
- IV Bottle Packing Line

# Inspection Section

We, at Pharma Machinery & Spares offer high-efficiency inspection equipment of the topmost quality standards. Our range of inspection machines includes the Manual Vial & Bottle Inspection devices, Online Visual Bottle Inspection Machine and Automatic Packaging Conveyors.

Our online visual bottle inspection device perfectly complies with the GMP norms. The adjustability of its conveyor belt helps the operators to align it with several other machines. On the other end, the manual inspection is capable of inspecting approximately 80 to 250 vials per minute. The machine runs on 440volt electrical power and hence delivers high-performance output. Our Automatic Packaging Conveyors operates with the help of conveyor belts having 3-speed pulley.

# Labelling Machinery

Pharma Machinery & Spares is one of the leading suppliers of highly functional labelling machinery. With an understanding of specific industry requirements, we offer Automatic Tube Labeller equipment, Fully Automatic Labelling tools with single and double-sided stickers. We also stock a complete range of Fully Automatic High-Speed Wet Glue Labelling instruments, Fully Automatic Self Adhesive Vertical High-Speed Ampoule and Vial Labelling tools, Carton Code Printing Machine, Automatic Bottle Labeler equipment, single/double side sticker labelling machine, Wet Glue Labeler Machine and Semi Automatic Self-Adhesive Labelling Machine.

The vial or phial, as it is also called, is a small bottle especially for liquid medicine. Therefore, the vial sticker labeling machine is normally automatic and can operate at high speed. Automation of the machine reduces machine downtime and increases efficiency. The vial sticker labeling machine has an in-built mechanism that helps to avoid manual feeding and storing of the label length data.

Some of the other sticker labelling machines offered by us are Fully Automatic Horizontal Ampoule Sticker (Self-Adhesive) Labelling Machine, Self Adhesive Vial & Bottle Labelling Machine as well as Label Dispensers and applicators.

For any manufacturing industry, labeling is a very important process. Labelling of products is one of the most important aspects of creating a popular brand. Today industries like pharmaceutical, cosmetics and food & beverages have a very high production requirement and labeling machines enable the manufacturers to deliver the required production effectively and efficiently. We offer a wide range of labelling machinery suitable for labeling various types of products like vials, bottles, ampoules, containers, jars, boxes, cartons and many more.

- Vial Powder Filling Machine

# Tube Filling Machines

At Pharma Machinery & Spares, we manufacture high-performance tube filling machines for creams and ointments. Our complete stock of tube filling equipment's include Automatic Tube Filling, Tube Filling Fully Automatic Ointment/Cream Manufacturing Plant, Toothpaste Manufacturing Plant, ointment manufacturing plant, and Contra Rotating Mixer.

Our tube filling machines operate in an automatic process and are capable of filling tubes of diverse sizes. The ointment filling tools manufactured by us also offer superior performance while filling ointments and creams. Moreover, all the parts of our toothpaste filling devices are SS 316 compliant and adhere to the GMP quality standards. Execution of all the major transfers takes place with the help of vacuum, which prevents contamination

The Cosmetics & Personal Care manufacturing mixer and plant, Cosmetic Skincare Manufacturing equipment and Plants, pharmaceutical ointment & cosmetic industries for the production of Ointment, Cream, Lotions, Tooth Paste & other emulsions & homogenizations.

Pharma Machinery & Spares is trusted manufacturing company since more than 30 year, we offered consumer products for the face, hair and body, cosmetics and personal care producers utilize a wide range of mixing technologies from Pharma Machinery & Spares with wide Applications such as of Manufacturing Plants for Hair care products, Creams and lotions, Sun care products, Face creams, Makeup, Skin care products, Hair coloring and dyes, Cosmeceuticals, Toothpaste, Perfumes, Detergent, Air fragrances, Cosmetic Cream Mixer Equipment, Applications Include All Cosmetic and Personal Care Area. mixers widely used to make cream, ointment, lotion and emulsion in cosmetic, pharmaceutical, food and chemical industries. Follow the product links below to learn more about each Ginhong vacuum homogenizer emulsifier machine, Contract Manufacturing & Filling, Shampoo, Cream, Lotion, Fragrance, Color Cosmetics & Lipsticks, Cosmetic Equipment & Machines, Cosmetic Manufacturing Machines, Special Purpose Cosmetics, Facial Masks, Vegan Cosmetics, Hair Dye Manufacturers, OTC Products Mixer, Manufacturing plant, inline harmonizer / mixer, filling line with turnkey project services.
